Message

I am happy to know that the Federation of Bangladesh Chambers of Commerce and Industry (FBCCI) is organizing its Annual General Meeting (AGM) 2020-2021 in Dhaka.

The Greatest Bangalee of all time, Father of the Nation Bangabandhu Sheikh Mujibur Rahman rebuilt the war-ravaged country in just three and a half years. For economic development of Bangladesh, he formulated a Five-Year Plan. Bangabandhu Sheikh Mujib turned the war-ravaged Bangladesh into a Least Developed Country (LDC). The GDP growth rate exceeded 9 percent.

Following the footsteps of the Father of the Nation, we have made incredible progress in every field of socio-economic development including agriculture, education, health, communication, information technology, industry, trade and commerce and become the 'Role Model' of development in the world during our last 14 years. Bangladesh has graduated from a least developed country to a dignified 'Developing' nation. We have formulated the Second Perspective Plan for 2021-2041 and are executing the 8th Five Year Plan. Today, the benefits of 'Digital Bangladesh' have been expanded from urban to remote rural level. Urban facilities are being ensured in every village. Per capita income increased to US\$ 2824 now from US\$ 543 in 2005-06

Awami League government has emphasized the role of the private sector in our socio-economic development. Bangladesh offers its large domestic markets, strategic location, high profitability, demographic dividend and conducive policy incentives that rendered the country as one of the most preferred investment destinations in the world. These have fostered increased private investments and yielded significant rise in both local and Foreign Direct Investment (FDI) in the recent years. Bangladesh saw exports growth more than 34 percent to USD 52.08b in the FY 2021-2022 from USD 15.6b in the FY 2008-2009. The country's imports also rose from USD 22.5b in FY 2008-2009 to USD 89.16b in FY 2020-2021. The private investment reached 24.06 percent of the total GDP in the FY 2021-2022.

I acknowledge the supportive role of FBCCI in our efforts to achieve development goals, expand trade and commerce in the country, and expedite overall economic progress. I hope that the FBCCI will play a proactive role in bringing more local and foreign investors in the country, and in building a hunger-poverty-free prosperous-developed Bangladesh by 2041 as dreamt by the Father of the Nation.

I wish the FBCCI Annual General Meeting a grand success.

Joi Bangla, Joi Bangabandhu
May Bangladesh Live Forever.

Sheikh Hasina

Economy in Retrospect

The year, 2021 has witnessed some downturns and recessionary shifts in global economy due to the effects of COVID-19 pandemic, which assumed the shape of a global pandemic from March 2020.

On the domestic front, the year of 2020-21 was a grand milestone for Bangladesh. The country celebrated 3 important occasions: Birth Centenary of our Father of the Nation Bangabandhu Sheikh Mujibur Rahman; 50 years of independence of Bangladesh; and fulfilment of all criteria set by the UN to graduate from the status of a least developed country (LDC) to that of a developing one.

The country is making its presence felt in the global economic platform, as the next Asian tiger with continuous macro-economic stability and strong focus on making a successful transition to a full-fledged middle-income country. The contributions and efforts of a proactive and dynamic private sector in the country represented by FBCCI can be gauged from the following indicators.

- **Macro-Economic Performance**
- **Fiscal Performance & National Budget**

Therefore, I would like to very briefly remark on these two critical indicators.

Macro-Economic Performance of Bangladesh

Before the pandemic, Bangladesh was one of the fastest growing economies in the world with consistent GDP growth of over 7%-8%. During the pandemic, by following the guidance of our visionary and dynamic Prime Minister, our government's swift response through the comprehensive stimulus packages as well as support and active role of the private sector, Bangladesh maintained a positive economic growth of 6.94 % in FY 2021. Although the pandemic has not yet fully subsided, we have achieved 15.09% export growth worth US\$ 38.75 billion in FY 2020-21. Imports grew by 11.91% and stood at US\$ 50.98 billion.

The positive growth of major economic indicators, viz. GNI per capita, export, import, foreign reserve, remittances among others during the FY 2020-21 speak for themselves. Digitalisation, e-commerce and e-governance continue to push forward the economy as strong growth drivers of growth in a pandemic-infested economy. All these achievements have been possible because of the bold and inspiring leadership of our Honourable Prime Minister – the architect of Digital Bangladesh.

The present government is carrying Bangladesh forward by implementing Vision-2041, a 100-Years Delta-2100 Plan and implementation of SDG Goals by 2030. These plans seek to eliminate extreme poverty and take Bangladesh to the Upper Middle-Income Country (UMIC) status by 2031, and High-Income Country (HIC) status by 2041, while presenting Bangladesh as an Environmentally Sustainable Delta Nation. As we move to the next stage of growth, more local and foreign investments would be required for greener technologies and modern production methods aligned with 4IR in the manufacture sector. Investment in research and development is also required for sector-based development.

We have to take into account the upcoming challenges of LDC graduation from 2026. But this will also generate ample opportunities for inclusive private sector development, enriched industrial base, investment, trade growth, local market expansion, and so on.

National Budget of FY 2021-22

The Government of Bangladesh declared the National Budget of Taka 6,03,681 crore for the fiscal year 2021-22, which aims to bring down the inflation rate below 5.6%. The Budget is adopted in the Jatiya Sangsad on June 03 with some changes to Tax, Duty, and Value Added Tax (VAT) proposals, is aiming at higher growth, lower inflation, lower interest rate, stable exchange rate, and expeditious investment.

The revenue receipts for FY 2021-22 has been estimated at Taka 3,89,000 crore (11.3% of GDP). NBR tax revenue is projected to be Taka 3,30,000 crore (9.5% of GDP). The revenue collection target from non-NBR sources has been set at Tk. 16,000 crore (0.4% of GDP). The non-tax revenue collection target has been set at Tk. 43,000 crore (1.2% of GDP). Total expenditure for FY 2021-22 has been projected to be Tk. 6,03,681 crore (17.5% of GDP).

The ADP size has been fixed at Taka 2,37,078 crore (6.9% of GDP), including allocation for projects to be implemented through self-finance of autonomous bodies. ADP allocations have been made by giving priority to enhancing regional capacity, developing human resources, bolstering agriculture and rural development, ensuring power & energy, erecting infrastructure, improving transport sector and social security benefits. Budget deficit for the year has been estimated to be Taka 2,14681 crore, which is 6.2% of GDP.

Submission of Post-Budget (2021-22) Proposals by FBCCI

FBCCI submitted its Post-Budget Proposals 2021-22 to the government immediately after placement of budget in parliament. FBCCI applauded some initiatives proposed in the budget, which included focus on skills development; tax cut facility for companies with 10 per cent of employees from the third gender community; and others. FBCCI appreciated the government moves for attracting more investments and protecting local industries. FBCCI mentioned that the longstanding challenges for budget implementation are good governance, proper monitoring, increasing investments and production, and fulfilling the revenue collection target by ensuring a business-friendly revenue system.

FBCCI also urged the government to meet the budget deficit from foreign sources and through special local bonds instead of taking loans from domestic banks. The Federation also proposed to remove advance income tax (AIT) and advance tax (AT) in the proposed budget to reduce the cost of doing business. FBCCI emphasized on separation of the policy wing and implementation wing of the NBR to bring about reform in tariff and tax structures, and ensure people-friendly, investment-friendly, and productive revenue system.

The FBCCI tried its best to convince the government about the ramifications of the above issues for the national economy. Various fruitful dialogues on the budget issues were also held with government functionaries.

“The people of Bangladesh have made tremendous strides over the past five decades, particularly on issues of social development and disaster preparedness. I congratulate on this progress, including graduation from the category of least developed countries.

Bangladesh is playing a very important role in the world stage as the largest contributor to the UN Peacekeeping operations, chair of the Climate-Vulnerable Forum and host to hundreds and thousands of refugees from Myanmar. We will continue to stand beside Bangladesh in tackling the climate crisis and working towards the sustainable development goals.”

Independent Auditors' Report on the Financial Statements
of
The Federation of Bangladesh Chambers of Commerce and Industry (FBCCI)
For the year ended 30 June, 2021

Disclaimer of Opinion:

We have audited the accompanying Financial Statements of **"The Federation of Bangladesh Chambers of Commerce and Industry"** (FBCCI) which comprise the Statement of Financial Position as at 30 June, 2021, Statement of Income & Expenditure, Statement of Receipts and Payments for the Period then ended, along with notes to the financial statements, including a summary of significant accounting policies (hereinafter referred to as "financial statements").

Because of the scope limitations described in the Basis for Disclaimer of Opinion section, we are not in a position to comment on the financial statements whether the same exhibit a true and fair view of the state of affairs of the Federation as at 30 June, 2021 and its financial performance and its cash flows for the year then ended.

Basis of Disclaimer of Opinion:

1. As stated by the management, FBCCI maintained their books of accounts in Tally Software for the year under audit. Unfortunately, the software crashed and no backup was preserved. As a result, we could not check the reported balances with books of accounts. The Financial Statements have been prepared without reference of any books of accounts including General Ledger, Cash Book and Bank Book. No Trial Balance was available from which the financial statements were prepared.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Organization in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

Without further modifying our opinion in above paragraph we would like to draw attention of users of the financial statements that:

- i. FBCCI reported donation in kind for Tk. 78,465,471 from its members against office interior decoration. The donated office interior decoration was valued by 'Geodetic Survey Corporation'—a survey firm. The Valuation report does not contain the disclosures on level of input to measure the fair value of the assets. No valuation methodology was noticed in the report. The valuation was not addressed to FBCCI. No formal approval of the management was available to record such donation at reported value and no work order in favor of the valuer company issued by FBCCI was available.

Responsibility of Management and Those Charged with Governance for the Financial Statements and Internal Controls:

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other Legal and Regulatory Requirements:

In accordance with the Federation, we also report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) In our opinion, proper books of accounts, records and other statutory books as required by law have been kept by the Federation so far as it appeared from our examinations of those books and
- c) The Statement of Financial Position, Statement of Profit or Loss & Other Comprehensive Income dealt with by the report are in agreement with the books of accounts.
